BARRIERS

Publication

-  **Governance**
-  **Legal**
-  **Organisational**
-  **Technical**
-  **Financial**
-  **Other**

- *Some data are payable by law.*
- *An organizational structure isn't set to execution level.*
- *Institutions are not enough motivated to open their data*
- *A methodological assistance is necessary for institutions to open data in third or higher maturity level.*
- *There are no clear planning and financing scheme to open the data*
- *The idea of open data isn't very popular and understandable.*

Re-use

-  **Awareness**
-  **Availability**
-  **Legal**
-  **Technical**
-  **Other**

- *Data providers are afraid of misinterpretation, critics and negative reaction from society.*
- *The list of open data sets is limited and contains only some part from all public-sector information.*
- *The legal restrictions are used to argue to reject an opening; some acts allow to high level of fee*
- *A lot of data are published in machine non readable formats*

BEST PRACTICES

Publication: Statistical data about internet users

Organization publishes data in a csv format. The example is a best practice given the machine readable format and regular updates of the data.

Re-use

No example provided.
